

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION 4
ATLANTA FEDERAL CENTER
61 FORSYTH STREET, SW
ATLANTA, GEORGIA 30303-3104

June 30, 2021

Mr. Jim Craig
Senior Deputy and Director
Office of Health Protection
Mississippi State Department of Health
570 East Woodrow Wilson
P.O. Box 1700
Jackson, Mississippi 39215-1700

Dear Mr. Craig:

As required by Title 40 of the Code of Federal Regulations §142.17, the U.S. Environmental Protection Agency Region 4 conducted an Annual Review of the Public Water System Supervision (PWSS) Program administered by the Mississippi State Department of Health (MSDH) for Fiscal Year (FY) 2020. The evaluation focused on core PWSS Program elements such as rule adoption and implementation, sanitary surveys, data management, lab certification and enforcement. In addition, it considered other programs and issues that support implementation of the PWSS Program, including capacity development, operator certification, and state resources. For this effort, we relied on existing information already reported to the EPA by the State as well as information gathered through routine meetings and correspondence with representatives of Mississippi's PWSS Program. The EPA concluded that the MSDH met the requirements of the PWSS Program and grant requirements for FY 2020.

Please review the enclosed report and provide comments to the EPA within 14 days. If this schedule is not acceptable, please contact us to establish a different time frame.

If you have questions regarding any aspect of the report or the evaluation process, please contact me at (404) 562-9345 or have a member of your staff contact Mr. Robert Burns of the Drinking Water Section at (404) 562-9456.

Sincerely,

Jeaneanne M. Gettle, Director
Water Division
